CURLING RINKS REORGANIZED

At a meeting of Blairmore's Curling Club, held last Sunday afternoon, at the Arena, it was decided to reorganize the rinks which had been arranged earlier in the season. The curling matches had not been carried out on time and the entire curling organization seemed to be "dragging its feet," so to speak, and in order to put curling on its proper standing in Blairmore, it was decided to reorganize.

Twelve ships were named on Sunday afternoon and on Monday evening another meeting was held at the Comopolitan hotel for the purpose of choosing the rinks.

Mr. J. Charbonnier, of the West Canadian Collieries, has donated a beautiful cup for the curlers, and this is an added inspiration for Blairmore to get some pep into their rinks and go after this beautiful trophy so generously donated by Mr. Charbonnier.

The secretary of the club was instructed to write a letter to Mr. Charbonnier thanking him for the trophy. The books showed 50 paid up members of the club and it is now hoped that an active and vigorous curling series may be carried out. It will require about one month to play the necessary series and all players are particularly urged to attend and be on time, so Blairmore may own and keep the trophy.

Following is the reorganized list of rinks:

F. Allott, W. Knight, J. Kennedy, J. Hughes (Skip).

A. Sheaffer, C. Smith, W. Swann, Dr. Olivier (Skip).

J. W. Gresham, D. Martin, J. Milne, A. E. Ferguson (Skip).

A. Morency, A. M. Elliott, C. J. Tompkins, Joe McDougall (Skip).

W. Fisher, Capt. Beebe, R. E. Donkin, J. H. Farmer (Skip).

J. H. Davis, G. Sangster, G. A. Patmore, W. Bird (Skip).

J. R. Gresham, R. Green, H. Burns, L. L. Morgan (Skip).

W. I. Huston, W. Whitlaw, M. Jenkins, J. Crowder (Skip).

W. Dutil, F. Wright, D. Lewis, Dan McKay (Skip).

A. R. Granger, E. Hinds, W. H. Chappell, J. E. Upton (Skip).

M. Belecky, M. McMurchy, R. K. Lillie, J. B. Wilson (Skip).

J. E. Gillis, J. Lote, A. H. Gunn, J. P. O'Neill (Skip).

INQUEST CONCLUDED

The coroner's inquest, touching the death of Edmond Olivier, was concluded at the local R.C.M.P. barracks on Wednesday and Thursday of last week, before Coroner F. M. Pinkney and the following jury: William A. Henderson, chairman; Max Belecky, R. W. Harold Pinkney, Louis Dutil, William H. Chappell and W. J. Bartlett. Solicitors Putnam and Gillis were present.

Sergt. Nicholson conducted the examination of witnesses, of which there were about fifteen, in an able manner.

After hearing all the evidence, the jury were charged by the Coroner on Thursday night and after one hour's session, returned the following verdict:

"That Edmond Olivier, deceased, came to his death on December 28th, 1921, in Blairmore, in the Province of Alberta, the cause of his death being due to injuries received in an accident on December 24th, 1921, about 9.30 p.m., in the Town of Blairmore, by a horse owned by the Coleman Trading Company, of Coleman, Alberta, running away and colliding with an automobile owned and driven by Dr. Joseph Olivier, and in which deceased was seated.

"From the evidence reviewed, we are satisfied that the driver of the automobile did everything possible to avoid the accident.

"We would recommend that legislation be passed, regarding horses left standing unattended, in order to

NEW COUNCIL TAKE UP DUTIES

The new 1922 town council met in re-organization session on Monday night, January 2, when the minutes of last regular meeting of the 1921 council were passed and the following slate of committees was approved:

License and Police—

W. McVey, chairman.

Alex. Morency.

Owen Morgan.

Fire and Light—

John McDonald, chairman.

E. Piccarillo.

John Angus McDonald.

Works and Property—

John Angus McDonald, chairman.

Owen Morgan.

W. McVey.

Waterworks—

Alex. Morency, chairman.

J. Angus McDonald.

William McVey.

John A. McDonald.

Finance—

Owen Morgan, chairman.

J. Angus McDonald.

E. Piccarillo.

Health and Relief—

E. Piccarillo, chairman.

John McDonald.

Alex. Morency.

W. McVey was elected deputy mayor for the next ensuing three months.

In the absence of Mayor McLeod, Deputy Mayor McVey presided at this meeting.

The first regular meeting of the council was held on Tuesday night of this week: when the mayor and all councillors were present.

The minutes of previous meeting were read and approved and the following accounts passed for payment:

S. Martin \$3.00, S. Ennis \$17.50. West Canadian Collieries \$3.45, E. Hinds \$1.00, J. H. Davis \$30.00, Lunlop

Tire and Rubber Co. \$672.17.

Accounts in connection with Collette and Sand fire—\$39.10 and \$123.75 respectively—were passed by the council.

Councillor Morency declined to vote on these accounts while Councillors Jack McDonald and E. Piccarillo also dissented.

The application of O. Brindley for the purchase of lots 5 and 6 in Block 8, Victoria Street, was granted; as was also that of Mr. Rhodes for lots 12 and 13 in the same block.

On motion the Mayor and Secretary Treasurer were authorized to sign cheques and otherwise deal with the bank in behalf of the town.

It was decided to purchase twelve pairs of Men's Yukon hi boots for use of firemen.

Regular meetings of the council will in future be held on the second and fourth Monday of each month, at 8 p.m.

POLICE GRAB CAR OF BEER AT BLAIRMORE

Apparently on the alert for the first appearance of what might be contraband, the Pass police, under Sergt. Nicholson, intercepted the unloading of a car of beer, consigned to a local party.

The car had arrived at Blairmore siding, and almost immediately after the seal had been broken and hands had begun to unload and distribute, the police arrived and stopped all such work after a couple of truck loads had been moved away.

Trucks were immediately commissioned, and the balance of the carload was at once moved to the storeroom at the Sanatorium barracks, where we understand it will remain until the authorities satisfy themselves as to whether or not it is legal liquid.

As usual, many dry tears are being shed because of the police intervention on this occasion.

The State of Pennsylvania laid 665 miles of concrete roadway during the past year.

avoid future accidents of the above type.

Keep Sloan's handy and apply freely, without rubbing, at the first twinge. It cures and brings comfort surely and readily. You'll find it clean and non-staining.

Sloan's Liniment is pain's enemy. Ask your neighbor.

At all drug stores. 35c, 70c, \$1.40.

Sloan's Liniment (Pain's Enemy)

World Happenings Briefly Told

The wedding of Princess Mary to Viscount Lascelles has been set for February 28, according to the London Daily Mail.

A bottle containing data that had been drifting six years since cast overboard in Japan, was found near Portland, Ore.

A Birmingham, Ala., real estate company gives to every purchaser of a lot 30,000 feet of lumber with which to start a home.

Building permits in Moose Jaw for 1921 were \$500,177, as against \$1,533,095. The 1920 permits included one million for the C.P.R. station and office building.

An automobile that had upon its hood the figure of a diving bell, led to the arrest in Hull, Quebec, of Jos. Senecal and George Balger in connection with the death of Joseph Paquette, of Montpelier.

Unless 100 highly amateur radio operators apply for Dominion licenses, the Windsor, Ont., patrol of the Canadian Mounted Police has received orders to dismantle all their wireless equipment.

A Belgian passenger on the steamer Zealand, who had been deported from New York, jumped overboard at sea and was drowned, the steamer's officers reported on her arrival at Plymouth, Eng.

A bomb was exploded among the crowd listening to a band in the market place of Dinkelsbühl, Bavaria, on New Year's Eve, injuring 50 persons, 20 of them seriously. The thrower of the bomb, a youth, and several other persons, were arrested.

The wedding of Charles Phillips, London, had progressed to the point where the registrar asked the bridegroom's full name. Then it was learned Phillips had delegated his brother to take his place while he went to France on important business. The wedding was postponed.

The New Year's toll of casualties from poisonous liquor amounted to four dead and six dangerously ill in New York hospitals, with uncounted scores of cases of acute alcoholism and accidents attributed to boisterous liquor. One case of alcoholic paralysis was reported.

The Austrian Government has permitted the fact to become known that the Vickers Armstrong Company, a British concern, has made an offer to purchase the great Woellendorf Arsenal, which it is proposed to convert into a plant for the manufacture of locomotives on orders received from the Italian States.

You wouldn't put on hobble to run a foot race

Then why load up on handicaps for the day's work?

A good deal of food, unwisely chosen, does weigh the body down and clog the digestion, and dull the brain.

Why put on the hobble?

Grape-Nuts is a breakfast or lunch-time dish for those who want food efficiency, and mind and body efficiency.

Grape-Nuts satisfies and nourishes. It delights the taste. It is ready to serve whenever you are ready to eat. And it digests easily, quickly and completely—leaving no handicap of heaviness and drowsiness.

Grape-Nuts is the food for health and action.

"There's a Reason"

Profitable Mining

Cobalt District Produced \$200,000,000 Worth of Silver in 1921

According to statistics already gathered and estimates being prepared for 1921 it is evident that the value of silver produced up to the end of 1921 from Cobalt and the surrounding district will reach an aggregate of close to \$200,000,000. Total dividends from the silver mines will exceed \$93,000,000, and with the treasures containing sulphur, which combined with disbursements actually made, show a net profit of over 50 per cent. of the gross yield. This is an achievement without parallel in the history of any other metal mining area.

For Hiccups and Heartburn Here Is a Good Prescription

Nothing brings such satisfactory relief as slowly sipping a few drops of "Nervine" in sweetened water. (Nervine is a sweetened water, tobacco, said to be the equal to the Quinine product.) They announce their intention of going into tobacco raising on a large scale next year.

Growing Tobacco in Manitoba Tobacco growing is the latest phase of agriculture introduced into Northern Manitoba. Messrs. Jacob and Gushin, two Belgians, who experimented with it this year, produced a tobacco said to be the equal to the Quinine product. They announce their intention of going into tobacco raising on a large scale next year.

WINTER HARD ON BABY

The winter season is a hard one on the baby. He is more or less confined to his room, badly ventilated rooms it is so often stormy that the mother does not get him out in the fresh air as often as she should. He catches colds which rack his little system, his stomach and bowels get out of order and he becomes peevish and cross. To guard against this the mother should keep a box of Baby's Own Tablets in the house. They regulate the stomach and bowels and break up colds. They are sold by medicine dealers or by mail at 25 cents a box from The Dr. Williams' Medicine Co., Brockville, Ont.

Canada's First Hemp

The hemp crop for 1921—the first year that it has been cultivated extensively—will be large, according to a Winnipeg company, under whose direction farmers in the province seed and sow the hemp. Five hundred tons will be realized at Portage la Prairie.

There is no poisonous ingredient in Holloway's Corn Remover and it can be used without danger or injury.

Woolen Mill For Victoria

British Syndicate Will Specialize in Worsteds Materials A British syndicate proposes the establishment of a woollen mill in the city of Victoria. The company states that it is their intention to specialize in worsted materials of high quality and carry through the entire process from cleaning and preparing the raw wool to the production of the finer grades of worsted materials.

Value of B.C. Minerals An estimate based on official returns places the value of the mineral productions of British Columbia for 1921 at \$24,553,909.

For Hiccups and Heartburn Here Is a Good Prescription

A careful survey of the youth of Winnipeg between 14 and 18 years of age has just been completed by the Winnipeg School Board. The results show there are 10,708 boys and girls from 14 to 18 years of age in the city, the boys numbering 5,966 and the girls 5,632. The survey was undertaken to ascertain what proportion of the children completing studies in the public schools have proceeded to the secondary schools.

Dyed Her Skirt To Make Child A Dress

Each package of "Diamond Dyes" contains directions as simple as writing. Even if you are a novice, you can dye or tint her old worn, faded dress. Even if she had been dyed before, she can put a new rich color into shabby gowns, dresses, velvet coats, stockings, sweaters, coverlets, draperies, hangings, everything. Just follow the directions and you will have a new dress. Diamond Dyes—no other kind—tint perfect home dyeing is guaranteed. Just tell your dyer what material you want to dye, by color or shade, whether it is linen, cotton, or mixed goods. Diamond Dyes never streak, fade, or run.

Chill has opened an official pawnshop to advance loans on reasonable terms to workmen.

Worms feed upon the vitality of children and endanger their lives. A simple and effective remedy is Mother Graves' Worm Extremator.

By making your purchases from your home merchant, you are contributing direct to the prosperity of the community to which you live.

CATARHAL DEAFNESS

It is greatly relieved by constitutional treatment. HALL'S CATARHAL DEAFNESS CURE is a constitutional remedy. It is a simple and effective remedy for the relief of the mucous lining of the Eustachian tube, which is the cause of catarrhal deafness. It is a simple and effective remedy for the relief of the mucous lining of the Eustachian tube, which is the cause of catarrhal deafness. It is a simple and effective remedy for the relief of the mucous lining of the Eustachian tube, which is the cause of catarrhal deafness.

Circulars free. All Druggists. J. C. Cheney & Co., Toledo, Ohio.

Counting House Genius

An electrically-driven instrument is now made which moistens the gum on envelopes, turns down the date, seals them up, then stamps them, counts them and turns them out ready for post—all at the rate of one hundred a minute.

It is usually safe to say that when a child is pale, sickly, peevish and restless, the cause is worms. These parasites range the stomach and intestines, causing serious disorders of the digestion and preventing the infant from deriving sustenance from food. Miller's Worm Powders, by destroying the worms, correct these faults of the digestion and serve to restore the organs to healthy action.

The Marvels Of Aluminum

When Alloyed With Other Metals Weight Practically Unchanged

Ever since aluminum was produced in a commercial form the greatest interest has been taken in its application to various engineering structures where lightness with strength is desirable. It was soon found that when aluminum was alloyed with other metals its strength was greatly increased without any great change in weight. Various alloys of aluminum have been used in the structure of airships and aeroplanes, and the results have been so promising that a special committee was formed in Great Britain to undertake systematic research of the properties of aluminum alloys. A report recently issued by this committee embodies the results of seven years of research conducted in the National Physical Laboratory. Which is subsidized by the British Government. This research has resulted in the discovery of many alloys which are of great promise for practically all kinds of engineering, particularly motor car machinery, railway rolling stock, internal combustion engines and steam engineering. The only problem awaiting solution is the production of these alloys on a commercial scale. Already a beginning has been made in this direction by a British Government factory; and British manufacturers are looking closely into the possibility of producing some of these wonderful substances for regular use in place of steel.

Minard's Liniment For Warts, Corns, Etc.

Inexpensive Meats

BY LORETO C. LYNCH
An Acknowledged Expert in All Matters Pertaining to Household Management.

In the farmhouse, meats are considered a rare treat and the ingenious housekeeper has devised ways of serving the delicacies. It is now possible for the city housewife to get meats, as the meat packers are sending them daily to the city meat markets.

Beef, pork or sheep meats may be used. The chef in our best hotels, too, have discovered ways of serving them. Try some of these recipes:

Braised Meats

Slice one pound of pork melts, cover with boiling water, let stand ten minutes, drain and wipe dry. Then, put into a stew, pan one carrot, two onions, sliced, and a bouquet of herbs. Lay the melts on top of these with enough stock or boiling water to about cover. Simmer with the cover on for about one hour. Remove cover and put into the oven to brown. Turn up some mashed potatoes, put melts on the potatoes, strain the gravy and mix it well with a sharp sauce, put it over and serve.

Meat Venetienne

Slice and cover the melts with boiling water, drain and wipe dry. Cut the melts into small pieces and place in the frying pan in which you cooked the herbs. Lay the melts on top of these with enough stock or boiling water to about cover. Simmer with the cover on for about one hour. Remove cover and put into the oven to brown. Turn up some mashed potatoes, put melts on the potatoes, strain the gravy and mix it well with a sharp sauce, put it over and serve.

Meat Venetienne

Slice and cover the melts with boiling water, drain and wipe dry. Cut the melts into small pieces and place in the frying pan in which you cooked the herbs. Coal Mines Under Sea

Cumberland and Nova Scotia Have Workings Beneath Ocean

In England, the workings of the Cumberland coal field run two miles under the sea. The ventilation of these mines is a nice engineering problem, but it successfully accomplished. At Workington, England, in the year 1837, before the science of surveying was as highly developed as at present, the sea burst through and the workers were drowned. Some of Nova Scotia's coal mining is also done beneath the bed of the sea.

Windsor Cattle Is like a small town in itself, containing hundreds of inhabitants.

Knights have their nests of small fish bones.

Lady Strathcona Aids Institution For Blind

Gives \$1,000 to Sir Arthur Pearson Memorial Fund

Lady Strathcona has given \$1,000 to the Sir Arthur Pearson Memorial fund.

At the suggestion of Lady Pearson it is to be devoted as follows: One-third of the subscriptions will be devoted to the blind, founded by Sir Arthur; one-third to the National Institute for the Blind; and one-third to be divided amongst all other blind charities. Subscriptions to the fund are open to all parts of the British Empire. The memorial fund is intended as a perpetual encouragement for all who dwell in darkness.

RESOLUTIONS—NT

What is needed at the New Year and all through the year, in these trying times of reconstruction and readjustment, is not good resolutions—but steadfast, straightforward action. New Year resolutions are largely a big joke. It's a nice habit, game strategy—a catchy thought with which to embellish common-place deeds.

There is, running through the entire world-scheme of business today, a tremor or shudder of indecision, unrest, uncertainty. Our very institutions seem to be sitting on shaky foundation. Our outlook seems to be honey-combed with fear and doubt. Our business plans seem unreliable and unsatisfactory. We hesitate for some unknown reason to throw our entire energy and faith in to anything.

What is needed by the entire world from Blaimore to the heart of the Empire, is just a little more confidence and trust in each other; just a little more faith in our institutions, a little more understanding of the other fellow's viewpoint.

We have seen so much havoc, so much ruin, so much suffering, so much hatred and bitterness during the great war, that our solid faith in all things has been shaken and we need a tonic of sincere and deep rooted brotherhood and comradeship in business, in the professions, in industries, in labor circles, everywhere in the world, to bring us back to our old forward-looking, optimistic viewpoint.

We can all help bring this about by being just a little more charitable to the other man's position; by trying to meet every man and every proposition, half way. In our little industries right here in the Pass, we can help to restore the old-time confidence, by putting just a little more trust in our neighbor, a little more faith in our business.

World wide settlement of unrest must be started in the little centres, in the little communities, and by gradually spreading, the great scheme of the world will soon be on better footing.

NATIONAL FISH DAY

FEBRUARY 1ST

February the 1st has been set aside as National Fish Day and a day in which many local fish eaters will no doubt enjoy themselves. The object is, of course, to attract greater attention to the wonderful food resource we have in our fisheries—and to educate the consuming public to make a more systematic use of this economical article of diet. Apart from the food value of fish, the fisheries give employment to over 50,000 people in canneries, packing houses, boats, etc., as well as providing sport for thousands more. During the seasons of 1920 and 1921, over 750,000,000 eggs and fry were distributed in the different waters of Canada, comprising the different varieties of salmon, trout, pickerel and whitefish. Over 1,000,000 eggs and fry have been put into the waters of Alberta alone.

A business economist recently mentioned the fact that all that was needed was to have someone start the ball rolling, and it would appear the principles of the McLaughlin Motor Car company have taken the first step in stabilizing the industry, increasing production schedules and re-establishing confidence on part of the buying public.

The provincial legislature will convene on February 2.

FORGOTTEN BLAIRMORE GIRL WINS IN BEAUTY CONTEST

The following item copied from a recent issue of the High River Times will no doubt be of interest to many people in Blaimore and The Pass. Mr. and Mrs. Osborne at one time conducted the destinies of the Alberta hotel here, and Linda was well and favorably known.

"Miss Linda Osborne, of High River, daughter of Mr. and Mrs. J. A. Osborne, was the recipient of a very nice new year's gift when she was officially notified that she had been awarded almost first prize in the recent beauty contest conducted by the Famous-Lasky film service of Toronto. Photographs were sent from all over Canada and Miss Osborne's was among the select few to be chosen. With the idea of making it a truly Paramount week for Canada, the film company decided that the holiday season, was an auspicious time to select from the thousands of beautiful girls and women in Canada, one person who should be the representative ideal Canadian girl and it is very gratifying indeed that Miss Osborne came so close to winning first prize, and we congratulate her on the honor conferred.

The following is a copy of the letter received by Mr. Bud Weiss, manager of the Electric Theatre from the branch manager of Paramount Weekly at Calgary.

"I have today been advised by our Toronto office that Miss Linda Osborne, of High River, was very close to being judged winner of the recent beauty contest. Miss Osborne is being sent a prize from our Head Office."

MASSONS INSTALL OFFICERS FOR 1922

The following officers were installed for the ensuing year at Hillcrest on the night of December 27th, 1921, by R.W. Brother G. Pattinson, D.D., assisted by R.W. Bro. G. Cruickshank, W. Bro. J. Delicate, and W. Bro. F. J. Smith:

Sentinel Lodge No. 26.
 I.P.M.—W. Bro. W. Hutchison.
 W.M.—Bro. R. Crichton.
 S.W.—Bro. S. Marshall.
 J.W.—Bro. E. Donkin.
 Treasurer—Bro. J. J. Murray.
 Secretary—R.W. Bro. G. Pattinson.
 S.D.—Bro. H. Westrup.
 J.D.—Bro. E. Fisher.
 S.S.—Bro. W. Adlam.
 J.S.—Bro. Fred Padgett.
 Chaplain—R.W. Bro. G. Cruickshank.
 Organist—W. Bro. F. J. Smith.
 Tyler—W. Bro. J. Delicate.

Rocky Mountain Lodge No. 80 I.P.M.—W. Bro. L. P. Robert. W.M.—Bro. W. H. Chappell, Jr. S.W.—Bro. G. Evans. J.W.—Bro. Harry Burns. Treasurer—Bro. W. A. Beebe. Secretary—Bro. A. R. Granger. S.D.—Bro. R. W. H. Pinkney. J.D.—Bro. R. D. McMillan. S.S.—Bro. I. Comfort. J.S.—Bro. A. Hamilton. Chaplain—Bro. James Crowder. Tyler—W. Bro. G. A. Passmore. After the installation a banquet was provided in the Masonic hall, Hillcrest, for the officers and members of both lodges and their ladies. About fifty members and thirty ladies were present. Bro. G. Pattinson acted in the capacity of toastmaster very efficiently. After the banquet a dance was given with music by the celebrated Bellevue orchestra. The Blaimore members landed home in the wee sma' hours. Amen and Amen

INSURANCE ADJUSTORS HERE

J. H. Harrison, representing A. E. Little and company, insurance adjusters, of Calgary, was in town for a couple of days last week, looking into the losses and insurance carried on buildings destroyed by the fire both in Blaimore and Bellevue. He was assisted in his work by J. B. Harner, the well known insurance agent of Blaimore.

STEFANSSON PLEADS FOR CANADIAN NORTH

That the great north country of Canada, even far into the Arctic circle, is not the frozen and uninhabitable wilderness which most of the world believes it to be, is the theme of a number of excellent articles now running in *World's Work* and *McLean's* magazines, by the well known Canadian explorer, Hjalmar Stefansson.

In these articles Mr. Stefansson not only gives the authentic and actual results of his own observations and explorations but also quotes the official records of both Canadian and United States governments, to show that it is not so cold, never has been so cold during the past score of years in which official records have been kept, in the very extreme north of the continent on Herschel Island as the mouth of the Mackenzie, nor in Alaska, as it is at Harve, Montana.

The very coldest weather recorded at Herschel Island observatory in the Arctic ocean is 54 degrees below zero. The very coldest weather recorded in the United States observatories in the extreme north of Alaska is 55 degrees below zero. At the same time, yes, after year, it registers 50 to 54, and in one year, 63 below zero at Harve, Montana, where some 5000 people reside and carry on their usual vocations throughout the year.

So he reasons from these official records which cannot be denied that it is quite possible for a heavy population to reside in the extreme north of Canada, after safe and regular transportation has been provided.

In the Mackenzie basin are millions of acres of rich agricultural land covered in part with timber, swamps, muskies and scrub, but good soil capable of producing all the crops of the temperate climates.

The native game animals of those northern climes—reindeer, caribou, muskox, wood buffalo and wild fowl—he declares, will support a large white population, if once the ravages of fires, ruthless slaughter by unprincipled sportsmen and other destructive agencies can be controlled.

He cites the results of the reindeer project in northern Alaska, where a few years ago the United States government imported some 1500 animals from Lapland and Finland. This herds has increased until it now covers vast scope of territory, furnishes milk, meat and clothing to the Alaskan Eskimos and the U. S. government is now considering extensive plans for exporting the reindeer men as a commercial enterprise.

So Stefansson pleads eloquently for a more charitable consideration of our vast unexplored hinterland which teems with fur, fish, wild fowl, wild game, mineral and timber, while also possessing lakes, rivers, cataracts and waterways of indescribable beauty. It requires a hardy race to explore and pioneer in such a country, but such a race can be found in Canada. When once our people come to conquer their unfounded prejudices of this vast empire of storehouse of wealth and natural products.

We need only recall that the prize of the United States Centennial Exhibition as far back as 1876, was grown by missionaries at Fort Vermillion, on the lower Peace river, where every year, now, fine crops of gardens, flowers and shrubs are grown.

A KIND ACT

The Lethbridge Hockey team visited the Blairmore hospital about 5 o'clock on the evening of their visit here, Monday last, and spent a half hour with Mel Rhynas, presenting him with a large bouquet of carnations, assuring him of their good wishes for a speedy recovery.

Mr. Rhynas maintains the esteem of hockey players and fans the Province over, who regret that an accident has prevented his playing as goalie this season.

A horse belonging to Mr. Collette, West Blairmore, was killed by a passing train a few days ago.

HISTORICAL SKETCH OF PINCHER CREEK SETTLERS

There are still residing in the vicinity of Pincher Creek and Brocket remnants of one of the oldest permanent French settlements in southern Alberta. This little settlement has a history reaching back almost a century, when the Hudson Bay company, with its wonderful organization of hunters, trappers and voyageurs roamed the wilderness in search of fur.

As this company gradually worked westward and established posts on the west side of the Rockies, the French employees from old Quebec and Montreal formed the greater part of their forces. Passing through what is now Macleod and Pincher Creek districts, these Frenchmen wandered at the vast prairies of waving grass, the rich black soil, the warm west winds which tempered the winter climate, and as they journeyed westward to Fort Colville, Kamagan, Vancouver, (Wash.), Astoria and elsewhere on the Pacific coast, they carried the vision of the Rocky mountain foothills with them and told the story to their children. Some of these voyageurs married blood and Peigan Indian women and took them to the Pacific coast with them.

Finally when the Hudson Bay company gave Oregon and the British title to the Columbia river country passed to the Americans, in 1842, these French voyageurs settled down in a little valley at Champoux, Oregon, many of them with the blood and Peigan wives.

Gradually as years rolled on the older ones died and left the story of these vast bunch grass prairies, as a heritage to their children and grandchildren. About 100 families of these French people emigrated from Champoux, in western Oregon, to Grand Coulee valley and Catherine Creek, in eastern Oregon, along in the early sixties. This was the first step of that backward pilgrimage which their fathers had planned.

Memories, traditions, ties of kindred and blood drew strong upon their heartstrings, and finally, about 3 years ago, some twenty families gathered up their horses, sold their little farms, packed women, children and household belongings into covered wagons, and left Oregon for the land of their forefathers.

The writer went to school thirty-five years ago, with Joe Livermore, Edward LeGrandeur, Ed Gagnon and others of that French colony. The writer's family lived on the fringe of the French settlement and he was reared with these French children; fancy a race he has ridden against Henry and Gilbert LeBoeuf, at county fairs in Oregon, 35 years or more ago. He has heard the LeBoeuf girls sing and recite in school entertainments and he has eaten, as a child, at Mrs. LeGrandeur's home in Antelope Valley.

Among the original families to join that caravan bound for the "Fort Macleod" country, were the following: Edward LeSage, Edward LeSage, Edward Gagnon, Alec LeBoeuf, Moses LeGrandeur, Nels Moris, Joe Livermore, Frank Carpentier and others whose names have been forgotten, in the mist of years.

Descendants of many of these old families still live around Pincher Creek and Brocket. Perhaps Mrs. Moses LeGrandeur is the only surviving member of the old stock, but children and grand children of that little band still live in those districts by the score.

They were the first people to experiment with winter wheat in that district and developed winter wheat growing into one of the leading industries in the Pincher Creek district.

We again recall of a handsome descriptive booklet issued by the publicity department of the Canadian Pacific Railway Co. and bearing the title, "Bridging Two Oceans and Linking Four Continents." The booklet contains a lot of information and views in connection with the Canadian Pacific steamship service.

BLAIRMORE LOSES TO TABER

A double-distilled, triple-x brand of hockey was played in Blairmore's spacious arena, to the delight of over one thousand cheering fans, when Blairmore and Taber clashed for the first league game to be played here this season, on Friday evening, January 6th.

From the instant that the puck left the hand of Referee Hume, of Coleman, on the strike of 8 o'clock to the finish of the game red hot hockey was played by both teams. Both teams played a four-man defense and there was straight shooting, fast shooting, skillful shooting on both sides, throughout, but splendid work at both goals kept down the score to 5-3, in favor of Taber.

Turner for Blairmore, unassisted, made the only goal in the first period, and he also barely missed the open net in that period by a fraction of an inch. The first period ended 1-0 in favor of Blairmore, with the crowd cheering wildly.

The second period opened with desecration and spectacular playing by both teams, both lining up a defense which was seldom broken, but Wayne scored two for Taber in this period, and Turner fouled the puck into Blairmore net, thus scoring three for Taber. The count stood three to one in favor of the visitors at the end of the second.

It was anybody's game, now. Both teams came onto the ice for the fifth period spirit and most of the fastest skating and most skillfully played hockey ever seen in the Pass made this third period a delight for the enthusiastic fans.

Turner again landed the first and only goal made by the home team in the third period, notwithstanding that scores of fine shots zipped straight toward the net, only to be turned aside by the stick of Taber's busy goal keeper.

For the visitors, Towell first scored in the third and Wayne assisted Towell to score again immediately after, thus giving them five goals, and at the very last of the third period, Malo, the Taber goalie, fouled me into his net, off a well aimed shot by Jenkins, thus ending the game with a scored count of 5-3 in favor of Taber.

A large crowd accompanied the Taber team and did some good rooting, and incidentally backing their team with their coin. The betting was 20 to 18 in favor of Blairmore, before the game, and considerable money changed hands.

After the game a dinner was served in honor of the visiting team at the Palm Cafe. Everybody agreed that they had received the full value of their money in the evening's entertainment, as the game was clean, fast and sportsmanlike throughout. Not one penalty was imposed during the entire game.

The lineup of the two teams was as follows:
Blairmore Goal Malo
Towell Def Wayne
McTeer Def Carleton
Turner For Towell
Pruden For Scott
Jenkins Storey
Goddard Storey
Vojprava W. Scott
Kilpatrick Douglas

Dairy Farming In Western Canada Is Making Rapid Progress

It has been said that an agricultural country can never reach its maximum state of development until its farmers escape extensively in dairies. This principle is now universally recognized, and the countries following the best farming methods are those producing the highest per capita output of milk, butter and cheese.

Western Canada has proved many times over that she can produce the best hard wheat in the world, and now she is convincing her neighbors that she can send them butter of just as fine a quality as her grain. Her farmers are gradually being persuaded that the most economical way to market their foddies and other crops is in the form of livestock and dairy products, and practical demonstration is proving this. During the past few years a phenomenal growth in the number of dairy cows and a wonderful improvement in the quality of dairy products has been witnessed in the Canadian West. At the present rate of progress, the permanent agriculture of these Western Provinces will, in a few years more, be devoted largely to intelligent dairy farming, with its products commanding the same respect as "No. 1 Canadian Hard Wheat" does today.

Before this can be accomplished, however, it is recognized that Western Canada must produce butter and cheese of a quality that will enable her to compete in the world's markets with such countries as Denmark, where the science of marketing dairy produce has been reduced to a fine art. To do this successfully, the basic product—cream—must not only be of a high quality, but the finished article for export must be of a uniform grade and adapted to the palates of the people in the countries where it is sent. This is the problem that is now occupying the attention of dairy experts in all these provinces. What success has attended their efforts may be judged from the fact that a ready market is found for all surplus produce, not only in the provinces of Eastern Canada but also in the United States and Europe.

It was not until 1915 that even Manitoba, although the oldest of the Prairie Provinces, commenced to produce enough butter to do any exporting. In 1915, however, that province sent out 152 carloads, and during the first few months of 1920, 17 carloads of creamery butter were shipped to Chicago, one to New York, one to Philadelphia, and two to Nova Scotia. Besides a number of orders from Eastern Canada and the Pacific Coast, Saskatchewan is following closely in the footsteps of her sister province, and during the first nine months of 1920, shipped 31 carloads of produce, 42 of which went to Eastern Canada and seven to points in the United States. From a production of just over two million pounds in 1910, Alberta now has an annual output of more than twelve million pounds of creamery butter, which is increasing steadily every year. A large proportion of this naturally finds its way to the export market.

In 1910, Alberta produced 2,315,000 pounds of butter, Saskatchewan 1,548,694 pounds, and Manitoba 2,050,487 pounds—a total of just over six million pounds. In 1920, ten years later, the production of these three provinces had increased between eight and nine hundred per cent. to 22,375,000 pounds. The total value of dairy products was more than \$74,000,000.

In spite of such progress, however, the dairy industry is only in its infancy in the Prairie Provinces, and there is much to be accomplished before these provinces can hope to reach their height of production. What has been done is but an indication of what may still be accomplished. Western Canada's most pressing need is more farmers and more stock. To these she offers a great opportunity. For the dairyman she has cheap land, growing heavy crops of grasses and feeders, a suitable climate, excellent marketing facilities, ensuring cheap production and a good price for the finished produce. With these assets and a more closely settled population there is no reason why Western Canada should not take her place among the dairy countries of the world.—By F. J. Cowdrey, Calgary, Alberta.

Preparedness

Minister—Your baby was very good at the christening. I don't ever remember of a child behaving so well.

Mother—I've been practicing on him for a week with the watering can.

Too many men who boast of being self-made seem to have been interrupted before the job was finished.

Earliest form of ballroom dancing was the quadrille, started about 1815.

Trappers Making Money

Expect Good Fur Trapping Season in North Country

Trapping is the business of the north country for the next few months—is in full swing and many trappers are well established on their trap lines again. Muskrat trapping has been going along briskly and it is expected that 100,000 muskrats will be marketed in The Pas. Reports state that the catch is good everywhere. Traders and buyers have been paying over a dollar for muskrat skins, while one buyer figures that a muskrat is worth more than a bushel of wheat and worth about as much as four bushels of oats.

Recently a number of fur buyers, with a sum of \$30,000 in cash between them, left The Pas for the north to buy furs along the Hudson Bay railway. The train stops at each trading post station for only a few minutes and in this brief period the fur buyers must rush upon the trade or trapper if any are about to make an offer for their furs. This manner of trading contains the element of chance as time prohibits close examination of the pelts, and the buyers can only hastily scan them and make their offer. This method of buying has been in vogue for many years, lone buyers have been known to return here with as high as \$40,000 worth of pelts.

Famous Convict Ship Will Visit Canadian Port

Ocean Liner Transported Men, Women and Children to Australia

The only survivor of the once notorious "felon fleet," which between the years 1787-1868 transported over 167,000 men, women and children convicts from Great Britain to Australia, namely, the Success, now on a tour of the world, will touch at Montreal, making a stay of several weeks at the opening of the next navigation season, according to a letter received from her master Captain D. H. Smith. The Success was built in 1790 and was the commodore of the "felon fleet," otherwise known as "The Ocean Hell." She is in no degree changed from her original state and aboard are many of the most dangerous, the whirling pious, the branding iron, punishment balls, lead-tipped cat-o'-nines, coffin bath and other tortures of the age. She has been inspected by over 15,000,000 people.

A Universal Alphabet

Would Be Of Great Benefit To All Nationalities

It has been suggested that there be called an international conference on the adoption of a universal phonetic alphabet. It is thought that the Roman alphabet should serve as the basis, but that slight modifications should be made in the forms of the letters, which would not interfere with their legibility to anyone familiar with them in their present shapes. In order that there be indicated the precise sounds for which they stand. Such an alphabet, it is maintained, would enable anyone to pronounce correctly at a glance the words of a foreign language, because the spelling, apart from a few special sounds, would be the same as in his own language. There is said to be no language so hindered by its spelling as the English.

Early Prisons

In ancient times prisons were private affairs used to remove rivals or enemies. The first application of the prison system in Great Britain was a punishment for crime came in the establishment of workhouses in London in 1550. Prisons started as reform institutions in 1704, when Pope Clement XI. organized the criminal ward of the Hospital of St. Michael in Rome, as a means to aid the criminal rather than punish him.

A Close Second

"I heard today that your son was an undertaker. I thought, you told me that he was a physician."

"Not at all."

"I don't like to contradict, but I'm positive you said so."

"You misunderstood me, I'm sure. I said he followed the medical profession."

Ghost Language

A man pretended to have seen a ghost, and was asked what it said to him. "I could not understand what it said," replied the man, "for it only spoke one of the dead languages, and I did not learn them at school."

The one great drawback about learning is the unsatisfactory compensation.

New Machine Sells Tickets

Also Makes Change and Saves Time and Labor

A machine for the rapid issue of railway tickets was being demonstrated at Manchester, Eng. The idea is quite simple. Outside the "ticket" are slots in the walls, and behind each of these a saucer-shaped receptacle. The traveler puts his coins in the penny, twopenny, or threepenny slot and the ticket shoots out into the receptacle. If he puts a sixpence into the twopenny slot, three tickets emerge. If he puts a shilling into the fivepenny slot he will get his ticket and a penny change. He need not have two pennies for the twopenny ticket. Four "halfpennies" will do, and though it is hardly fair to worry the brains of the machine, it accepts farthings. But it is of no use to feed it with bad or foreign coins. These are returned.

All the work is done by the operator in the box, who stands at the lever and shoots out the tickets at a great rate as the coins tumble into a receptacle below the lever. Those who "watched" the machine at work, among them were railway men, said that undoubtedly the invention would prove its value, especially during the rush hours.

Saskatchewan Fisheries

Fresh Water Product to Value of \$300,000 Netted Annually in Province

The importance of the fresh water fisheries in Saskatchewan is indicated by the fact that approximately \$300,000 worth of fish are being caught in the lakes of this province and marketed annually, according to a report of the Department of Labor and Industries just published. A considerable amount of money has been spent on the development of the fish business, the total investment in boats, gear, smoke houses, nets and other impedimenta being \$56,456.

The most popular fresh water fish on the market in the province is the white fish. The total catch of this class of fish during the last fiscal year was 2,420,000 pounds, valued at \$212,869. This represents about two-thirds of the total fish catch of the province, the remainder of the catch being distributed between gold eye, lake whitefish, pickerel, pike, sturgeon, trout and tullibee.

The scarcest fish for marketing purposes is the gold eye. Just one ton of this fish was caught and marketed during the year, its valuation being \$420.

Beet Sugar In Canada

There are now three sugar factories in Canada which manufacture from Canadian sugar beets. They are situated in Western Ontario. Their annual production is about 38,000,000 pounds. About 19,000 acres are cultivated to beets.

Educating the Indian

Twelve Thousand Indian Children Attending School in Canada

There were 12,568 Indian children attending Indian schools throughout the Dominion during the past year, of which number somewhat the larger portion were girls. According to the annual report of the Department of Indian Affairs there were 326 Indian schools in operation, 253 being day, 53 boarding and 15 industrial. This shows a net increase of five schools over the previous year. The total enrollment in the day schools was 7,775; in the boarding schools 3,156, and in the industrial schools 1,637. The average attendance in the three classes of schools was 3,723, an increase of 1,094 over the previous year.

The course of study in that prescribed for the pre-graduate, public and separate schools and is strictly adhered to.

Land for farming and gardening purposes as provided at practically all the residential schools. The pupils are thus enabled to get a general knowledge of agriculture. The granting of assistance to graduates is being continued. Upon leaving school an Indian girl may be given a sewing machine or household furniture; a boy may receive a gram of cattle, horses, implements, harness or building material. During the year under review 24 girls and 11 boy pupils were assisted to the extent of \$2,933.84.

The outlay on Indian education from parliamentary appropriation during the year amounted to \$1,112,409.63, of which \$15,000 was for the provinces of British Columbia and \$208,000 in Ontario.

Dominion Will Supply Five Million Trees

Forestry Farm Plans Distribution For Planting in 1923

Five million trees are to be distributed among the farmers of the three prairie provinces from the Dominion Forestry Farm for planting in the spring of 1923, according to an announcement published by Norman M. Ross, superintendent of the farm.

To secure these trees, Mr. Ross points out it is necessary to have applications sent in to him at Indian Head before March 1, 1922. The applications are required to be made a year ahead. In order that the department may be satisfied that a year's preparation of the soil is made before the trees are put into the ground on the farms.

Guernsey Cattle Association

The first Guernsey Cattle Association in Canada has been formed at Patricia, Alta., by a number of farmers interested in dairying. Arrangements have already been made to have two herds of Guernsey cattle shipped to members of the association.

Hope deferred gives one cold feet.

Canada's Wheat Wizard Helps Western Farmers Through His Experiments

Emigration and Empire

Folly of Allowing British Citizens to Go to Foreign Countries

"The statesmen of the Empire are at last awake to the folly of allowing British citizens to go to foreign countries when the empty lands of Australia, New Zealand and Canada are crying aloud for population," the Auckland News says. "On the further development of such a policy the future of the Empire very largely depends. The United Kingdom has capital and surplus population, the Dominions offer land and opportunity. The problem of redistributing population and conserving British capital for the development of the young countries overseas will not prove insuperable if it is approached in the Empire spirit, and its solution will contribute much not only to the safety but the prosperity of the British nations."

Russians Coming to Canadian West

Former Powerful Families Contemplate Farming in Prairie Provinces

Several wealthy Russians are negotiating for tracts of irrigated land in the southern districts of Alberta, and one Russian, A. Koukalevsky, has already arrived and secured a half section. In the days of the Czar this Russian was employed in the diplomatic service, but was forced to flee with a number of his compatriots to Japan. He is the advance guard of five other former powerful Russian families who contemplate coming to the prairies to farm.

Alberta Cattle Are Winners

Every animal sent to the Chicago Livestock Show from the province of Alberta won a prize. Exhibits included Shorthorn and Hereford cattle and Percheron and Clydesdale horses. Among the prizes awarded was the Canadian Horse Breeders' Association trophy—for mare, won by Hamilton Brothers, of Innisfail.

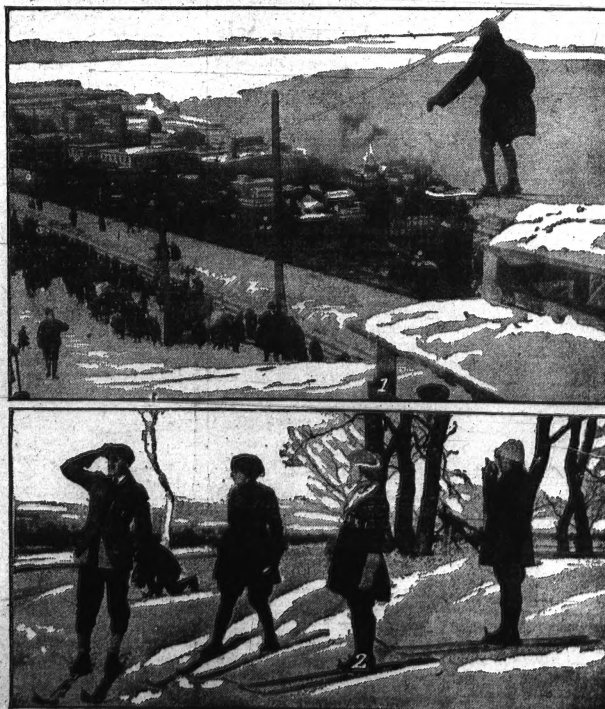

Big Timber Deal

A timber lot at Chilliwack, B.C., is reported sold for \$600,000 by Alex. McLaren, of Buckingham, Quebec, to Westminster Mills. The property has been held by McLaren family for 22 years. McLaren still has extensive holdings on Vancouver Island.

People do wrong in trying to convince when they know very well that they did.

Give your local merchants a chance. Buy at home.

QUEBEC WINTER SPORTS

Swine For Peace River

Pure Bred Saskatchewan Stock Brought to Surrounding Communities

Swine bred on the Saskatchewan Institutional farms are finding their way into the Peace River country as a result of the policy of breeding pure bred stock on these farms inaugurated a couple of years ago.

Hon. A. P. McNab, minister of public works, states that the bulk of the pure bred sows raised on the various institutional farms have already been disposed of and 23 pure bred Yorkshire sows have been sold from the Prince Albert jail farm, and the mental asylum farm at North Battleford, to the sheep and swine division of the federal livestock branch for resale to farmers in the Peace River country in Alberta. These sows were all young stock, and averaged the satisfactory price of \$30 a head.

"The increase of pure bred stock at the Regina, Battleford and Prince Albert farms," said Mr. McNab, "has been a boon to the surrounding communities, and the fact that the Federal Government, in selecting the best type of bacon hogs for the Peace River district, should have made such a heavy purchase in Saskatchewan, has been a source of much satisfaction to the Department of Public Works."

Ship Chilled Meat Via Panama

According to the Panama Canal report 3,500 tons of meat from the Canadian Pacific coast passed through the canal between January 1st and August 31st en route to European ports. A consignment of 100 tons of mutton from Vancouver is said to have been the first shipment of chilled meat from Canada to Europe by way of the canal.

The oldest building in Rio de Janeiro is the Church of St. Sebastian, begun two years after the city was founded in 1565.

Blairmore Lodge No. 68, meets every Tuesday at 8 p. m. in the Oddfellows' hall, Officers: W. J. Patterson, V.G.; W. T. Patterson, R.S.; J. Montabetti, treasurer.

Crows' Nest Encampment No. 5, meets on the second and fourth Wednesdays of the month in the I.O.O.F. hall at 8 p. m. Officers: E. Eckner, C.P.; J. Montabetti, treasurer.

Crowview Rebekah Lodge No. 64, meets the first and third Thursdays of the month at 8 p. m. Social evenings every alternate Thursday. Officers: Sister McVey, R.O.; Sister Patterson, V.G.; Sister Randall, R.S.; Sister Fraser, F.S.; Sister Archer, treasurer.

Bellevue Lodge No. 118, meets every Monday night at 8 o'clock in the I.O.O.F. hall at Bellevue. T. Bradley, R.O.; Fred Padgett, V.G.; H. Barlas, Secretary.

Ray of Hope Rebekah Lodge No. 67, meets the 2nd and 4th Wednesdays of the month in the I.O.O.F. hall, Bellevue, at 8 p. m. Sister Prescott, N.G.; Sister Christie, V.G.; Sister Blake, R.S.; Sister Litherland, F.S.; Sister Goodwin, treasurer. All Rebekahs welcome. We go in for a good time.

Visiting members of above branches of the Order cordially invited to attend these meetings.

AMERICAN CONSULAR SERVICE

In view of a recent ruling of the Treasury Department of the United States, Consuls have been instructed to require a statement in each consular invoice as to whether the merchandise covered thereby is subject to—(a) No export tax; or (b) amount of export tax paid and whether included or not included in the invoice value, and whether sales of merchandise similar to that covered by the consular invoice when made by manufacturers for home consumption are subject to—(a) No internal revenue tax; or (b) Amount of internal revenue tax and whether remitted or not imposed upon merchandise exported. Invoices received at the Consulate after January 20th, not complying with the foregoing requirements will be returned to the shipper for correction.

LAND WITHHELD

The department of the interior withdrew all government land lying south of the main line of the C.P.R. in Saskatchewan and Alberta, from settlement, this week, pending the final adjustment of the situation in the drought districts. While there is very little land left, open for settlement in the prescribed territory, yet this action proves that the government is going to the bottom of the arid land question.

PERSISTENT STRIKE TALK

Throughout the Crows' Nest Pass district there is an undiminished strike talk which is perhaps not justified, as yet. It is the general opinion that if the miners are asked to take only a 25 per cent reduction, there will be no strike. If the reduction is to be 35 or 40 or even 50 per cent, which has been suggested, a strike may result. However, it is hoped by both miners and the public that the strike talk may not end in a strike. Work has been very light during much of the past year and many of the men have barely kept their expenses going. A strike would be the worst possible thing that could happen at this time.

TO SPOIL WATERTON LAKES

Under the irrigation projects now being promoted in Southern Alberta, the beautiful Waterton Lakes, situated in the Waterton Lakes Park, are to be used as a source of irrigation water, and thus entirely obliterated from the map, as a recreation and beauty spot in Southern Alberta. To prevent this spoliation of the lakes, it is proposed to have every board of trade, business organization and enterprise of whatever kind in Southern Alberta, write, wire and memorialize Parks Commissioner Harkin, to preserve these lakes in their present wonderful state. It seems that every other possible source of irrigation water in Southern Alberta should be exhausted before laying hands on this system of lakes. If Waterton Lakes are thus ruined, what is to prevent every other park and reserve in the Dominion going the same way?

BLAIRMORE VS. LETHBRIDGE

A disappointed bunch of hockey fans left Blairmore on Monday night, last, after Blairmore's team put over Lethbridge team, to the tune of 6-8. The Lethbridge team was accompanied by a good sprinkling of supporters and Coleman also sent down a large and noisy delegation to root for Lethbridge, so the visitors were not lacking in vociferous applause on making a few brilliant plays of the evening.

Lethbridge started out briskly, W. Henderson and Raiber each scoring a goal in the first period, while McTeer scored one for Blairmore, making the result 2-1 for Lethbridge at the end of the first period.

In the second period Blairmore warmed up and counted three, scored by Prudden, McTeer and Vojprava. Wallace for Lethbridge slipped one goal in during this period.

The game was exceedingly exciting and a perfect fusillade of cheering shook the roof of the Arena as the different favorites scored a momentary triumph.

The end of the second period found the score 4-3 in favor of Blairmore and when the third period opened the skating was fast and furious and with numerous brilliant plays of the visitors stopped at the gate by Goal keeper Ennis, of Blairmore's team, who played his very best game on this occasion, stopping many hard, straight and swift shots from the Lethbridge team.

The last five minutes of the third period was certainly fast hockey, but the Lethbridge team failed to score, while Prudden scored one and Vojprava off McTeer scored another, making the final score 6-3 when the song ended the game.

This game was called promptly at 8 o'clock and Tommy Clark, of Hillcrest, refereed in a most satisfactory manner.

Following is the lineup:

Lethbridge	Blairmore
Hart	Goal Ennis
McPhee	Def Turner
P. Henderson	McTeer
W. Henderson	For Jenkins
Wallace	LeVasser
Edsall	Pruden
Reber	Scott
Hummon	Vojprava

MEETING OF HOCKEY LEAGUE EXECUTIVE

A meeting of the Crows' Nest Pass Hockey League executive was held here last Monday night to settle the protest of the recent Bellevue-Lethbridge game. It was definitely decided that the game was a tie, 4-4, and it is to be played over on neutral ice, the time and place to be set by the president of the League. Those present were: President Cruickshanks; Secretary G. R. Powell; R. Morgan, Pincher Creek; J. J. McIntyre, Bellevue; H. J. Blue, Taber; B. C. McDonald, Coleman; W. H. Chappell, Blairmore.

HOW MERCHANTS BANK FAILED

When trouble came to the Merchants bank and it was merged with the Bank of Montreal a few weeks ago, the news was peddled out broadcast that western crop failures and farm loans was the cause of the trouble. Now it has transpired that the West is not in any sense to blame for the failure. As a matter of fact, the Merchants, like all other banks in the west, has never placed any large amount of loans on the one permanent and stable industry in the west, agriculture. The cause of the failure was the immense sums loaned to Ames-Holden, Atlantic Sugar companies, and boomer speculating concerns. Any of this class of investors, working on a shesting can always get plenty of money to promote wildcat schemes. One wildcat clothing concern, with a string of stores across the Dominion, used \$800,000 of Merchants bank funds, before it went broke. Not one penny of the bank's losses came thru western crop failures. That was a "stall" to hide the real cause of the failure from the public.

MAJOR WALKER LEAVING

Major the Rev. W.L. Walker, rector of St. Luke's Anglican church in Blairmore, has decided to return to England on account of his health, and with a few days himself and Mrs. Walker and their daughter, will be on their way to the old country. They came here about one year ago from High River and during their brief residence in Blairmore have made a large circle of friends who regret to see them leave. Before the war Major Walker held important positions in England, but the war upsetting all plans, he came to Canada. Since the death of their infant son, last week both Major and Mrs. Walker have been greatly depressed and his health not being rested in this country, they have decided to return to England. Friends in Blairmore and vicinity wish them God-speed and hope to see them returning to Canada some time.

CROWS' NEST PASS HOCKEY LEAGUE SCHEDULE, 1921-22

JANUARY—
Friday, 13, Blairmore at Coleman.
Monday, 16, Blairmore at Taber.

Monday, 16, Coleman at Pincher Creek.

Monday, 16, Lethbridge at Bellevue.

Thursday, 19, Pincher Creek at Taber.

Friday, 20, Coleman at Lethbridge.

Friday, 20, Bellevue at Blairmore.

Monday, 23, Lethbridge at Coleman.

Monday, 23, Taber at Pincher Creek.

Wednesday, 25, Blairmore at Bellevue.

Monday, 30, Taber at Coleman.

FEBRUARY—
Wednesday, 1, Blairmore at Lethbridge.

Thursday, 2, Pincher Creek at Bellevue.

Monday, 6, Lethbridge at Pincher Creek.

Monday, 6, Bellevue at Taber.

Wednesday, 8, Coleman at Blairmore.

Monday, 13, Taber at Lethbridge.

Monday, 13, Pincher Creek at Blairmore.

Wednesday, 15, Bellevue at Coleman.

The Maple Leafs in "Camouflage"

received a rousing reception at the opera house here tonight. The building was packed almost to standing room, despite the fact that hundreds of Blairmore people were attending the hockey match at Bellevue.

Why He Stunk

The immigration officer—Lord man, did you ever have a bath in your life? The Prospective Citizen—Yes, once. Twice in the old country. Once in the River Bug and once in the Oiler.

Mortgage Sale.

NOTICE IS HEREBY GIVEN that by virtue of an Order made in a certain action wherein Thomas W. Hand is the plaintiff and William Alexander Bothwick is the defendant, the following lands and premises will be sold by public auction at the Town Hall in the Town of Pincher Creek, Alberta, on Tuesday the 31st day of January, A. D. 1922, at 2 o'clock in the afternoon. The North-east quarter of Section Ten (10) in Township Seven (7) and Range Two (2) West of the fourth meridian, containing one hundred and sixty acres more or less, saving and excepting the reservations contained in the Grant from the Crown and the Certificate of Title to the said lands. The following buildings are said to be on the property: Dwelling house, log one-story, 18x30. One stable, log 16x28. Said buildings are in fair state of repair. Water is obtained from a small spring and stream. Sixty acres are said to be broken. Two and a half miles of fence in fair state of repair. Nearest post office and school three miles. Nearest railway station and market town, Lundbrock, three miles. The soil is said to be black loam.

TERMS of sale are as follows: Ten per cent of the purchase money must be paid at the time of sale and the remainder within sixty days after sale. The property will be subject to a reserved bid.

For further particulars apply to **THOMSON & JACKSON** Solicitors for the Plaintiff, Pincher Creek, Alberta. Sgd. "A. M. MacDonald" L. J. S. C.

A substantial reduction in the price of Canadian built automobiles comes as a unique Christmas present to the motoring public of Canada, many of whom have deferred the purchase of a new car, waiting for the price to be back to normal.

The new prices for the McLaughlin-Buick automobiles announced today by the McLaughlin Motor Car Co. Ltd., of Oshawa, will no doubt do much to speed the production and industry. The amount of the drop shows a disposition on the part of the manufacturers to get back to substantial marketing and merchandising conditions.

Mr. E. S. McLaughlin, president of the General Motors of Canada, of which the McLaughlin Motor Car company is a subsidiary, gives the following statement:

"The new prices of the McLaughlin-Buick cars represent more dollar-for-dollar value than we have ever before offered."

"In fixing prices we figured on less than present day replacement values of parts and materials in hand anticipating some further reduction in costs which we may receive although there is a tendency to increase in some commodities."

"We also figured on the economies to be effected by quantity production which we feel sure these new prices will make necessary."

"Another factor making lower prices possible is the fact that Oshawa plants are working on maximum production schedules, to fill export orders allowing us to distribute our overhead expense over our entire domestic and export business giving a direct and immediate benefit to the Canadian consumer."

The retail prices of McLaughlin motor cars show on an analysis some new levels in quality Canadian built automobiles. The prices last December when the luxury tax was included were from \$800 to \$1700 higher than the new prices just announced.

Cowley Happenings

Miss Cairn, of North Fork, is a Calgary visitor for the present.

On Wednesday night, the regular whist drive will be held in the Masonic hall.

The Women's Institute meets on the 4th Saturday of the month in the Masonic hall.

On Tuesday afternoon, a hockey match took place between the North Fork and Cowley teams. Cowley came off victorious.

Mrs. Will Tustian and little niece, Maribel Marlow, have gone to Innisfail to spend several weeks visiting with Mrs. Elwin Tustian.

The dance held here on the 4th by the Clarendon orchestra was fairly well attended. Bad weather prevented a good many from coming.

Mr. and Mrs. Tate, of Taber, (formerly of Cowley) started by motor to Summerland, B. C. On arriving within a mile of Cowley, they got stuck and had to have their car pulled out of a snow heap. They left their car here and finished their journey by rail.

The party given by Mrs. Brockwell at her residence west of town on Monday night, for the young folk, was a decided success. The early part of the evening was taken up by skating, after which dancing was indulged in for a few hours. A swell time was reported.

On Sunday night, Rev. Mr. Day, of Pincher Creek, held service here in the Presbyterian church. On Sunday, January 22nd, he will give a lecture illustrated by lantern slides. We expect this to be very interesting and instructive.

For the past year there has been an average attendance of over forty pupils in the Sunday school here. We hope this year will yet be better. Several of the children have received gold pins as a reward of faithful attendance, not missing a Sunday for the whole year.

LETHBRIDGE-BELLEVUE GAME

In the Crows' Nest Hockey League game played between Lethbridge and Bellevue teams, at Lethbridge, on Wednesday evening, January 4th, a dispute arose over one score alleged to have been made by Lethbridge, the official score being 5-4 for Lethbridge, while the Bellevue team claimed it to be 4-4, and therefore, a tie. The disputed goal was made by Lethbridge "charging" Podger, the Bellevue goal keeper, according to Bellevue's claim, and under the rules the goal should not be allowed. However, the referee marked the goal down, backed off from the net a few feet and centred off. The goal was counted though, thus giving Lethbridge the game.

BLAIRMORE JUNIORS DEFEAT COLEMAN JUNIORS, 3-2

In a bright game played on Wednesday evening, January 4th, in the Blairmore Arena, the Blairmore Juniors or Hockey team defeated the Coleman Juniors by a score of 3-2. Both teams played well and furnished a great deal of entertainment to the moderate crowd of fans who witnessed the game. The lineup was as follows:

Blairmore	Coleman
Walton	Goal Fraser
McLeod, A.	Def
Nemura	Brennan
Turner, J.	For Evans
Webb	Oginiski
McLeod, J.	Johnson
Vojprava	Spares Graham
Bond	Brennan
DeWatts	Ash

CURLING PHILOSOPHY

Inside the clubroom at the rink are benches in a row.

Where fellows sit to watch the games. While wheats of smoke they blow. And if you really want to learn The fine points of the play.

Don't shoot your rocks, just stay inside.

And listen what they say.

So light your pipe and take a seat Where it is warm and nice.

Where better games are always curled Than upon the ice.

For soon you'll hear: "Hes narrow sure"

His coming down to ohard.

No, No,—don't sweep—just let it go. He's going to get the guard."

"Say! Watch that guy, he twists he makes"

In his deliverance—

He'll tie himself into a knot If he should draw the tee.

He's wide—he's slow—he, let he go; He never got the broom.

There's no excuse to miss that shot, He sure had lots of room."

"Now what's he playing that shot for? He no, he be about?"

He ought to have a runnin' shot And take that rock right out.

He'll never get it with that ice— Well look at what he struck.

He got it after all, but then He had a lotta luck."

But when these men are called to play These curlers skilled and wise,

They make the very same mistakes As those they criticize.

They find it takes but little skill To dissipate advice,

And play a scientific game When they are off the ice.

So as we pass along life's way, And as we hear men talk,

We're always skillful when we throw The other fellow's rock.

This disposition is not strange, Through life it's much the same,

We're always wisest when we skip The other fellow's game.

A Lethbridge fan at the recent game here was shouting loudly, "100 to 1 on Lethbridge." When called, he answered "Bet you two-bits."

A Calgary firm, Wood, Valance & Adams, Ltd., have presented a card of condolence to the Blairmore Juniors for the loss of a member.

Have You Ever Thought of Settling in Beautiful British Columbia?

In a warm healthy climate, with sea bathing, hunting and fishing available.

You can do so in

Richmond

which is only half an hour from Vancouver City and all its attractions. Own your own home in one of the richest soils in British Columbia, where you can make a comfortable living on ten acres by fruit raising and poultry raising.

THE KIND WORD

A friendly word that's kindly spoken is just as cheap as one that's cross, and it may brace some pilgrim broken, who finds life a total loss. It doesn't cost a copper penny to say, "Good morning, how d'ye do?" And it may mean a lot to many, and set their faces smiling too. The smiles we wear are inexpensive, yet keep the world in better shape; their influence is so extensive it can't be measured with a tape. The kind and friendly words we scatter, with love of mankind in our tones, may well survive the wreck of matter, the crash of dynasties and thrones. And so I greet my fellow mortals with loaded smiles of thirteen ems, and do as men, perhaps, with chorlces, as Rich-men do with gold and gems. The plan is old; man inter-galactic no doubt was vaguely on its track, and learned that his expression facial helped things along or set them back. And still we must be pleasing, urging, along this line till time is done, that men may be from gloom emerging, to take their places in the sun.

—WALT. MASON

The actual paid admissions to the Blairmore—Taber hockey game were in the neighborhood of 1,060. The Blairmore—Lethbridge game drew a crowd of around 976. If the Lethbridge—Bellevue protest game is played at the Arena here, it's a safe bet that it will be crowded to its capacity.

The coffee counter at the Arena is doing good business.

Even the price of bootleg whiskey refuses to come down off its perch.

Teddy Mutz has returned to Vulcan, after spending a few days with his father and brother here.

Christmas was an unwelcome visitor present in the minds of many small boys the day after.

A new paper bearing the title "The Sporting Mirror," is being issued at Edmonton, the first issue coming to hand a few days ago.

An Ottawa barber relates a curious New Year's experience. His last customer on December the 31st was Hon. Arthur Meighen, and his first customer in the New Year was Hon. William Lyon MacKenzie King.

What do you think of this: A local Chairman, when approached by a couple of Calgary men for building and plumbing contracts, told them that he did not want to send his money away from town, that he was dependent to some extent upon local business men and contractors and that he felt duty bound to favor Contractors from here and others who have vested interests here. He concluded with the remark: "Local men he no build for me; me no build him."

Canada's Needs

No. 2—Agricultural Prosperity

Concluding the first in this series in which the greatest need of Canada, in order that it may become the nation nature intended it should be, was declared to be adequate population, the view was expressed that, first and foremost, it should be definitely ascertained why so many people left the country. In a word, why Canada failed to hold the people who immigrated to the Dominion, and even failed to hold its own native born.

The fault should be clearly established, and, in the opinion of the writer, it is not far to seek. It is, we believe, to be found in the fact that, despite the enormous area of fertile agricultural land, the wonderful productivity of its soil, and the vicinity of its climate and people, the business of farming is not a paying one, with the inevitable consequence that agriculture languishes and thousands of people who engage in it give up after years of struggle, while other thousands go on from year to year without making any material advance and become wholly disheartened.

As long as such a condition continues, and millions of acres of arable land remain unsettled and unproductive, all industry in Canada will suffer, our railways will continue to be operated at a loss or be forced to impose such heavy rates upon the commerce of the country as to constitute another and serious obstacle to settlement, development, and the business of the Dominion.

All observant men must admit that there is something radically wrong when the second largest grain crop ever raised in the Prairie Provinces, that is so far as quantity is concerned, proved to be not a debt-paying crop but a debt-producing crop. The hundreds of millions of bushels of grain grown and harvested in 1921 should have given a great impetus to business in Canada, should have paid off millions of debt contracted in the previous poorer years, and should have started many people on the road to prosperity. But, alas, taken as a whole the crop of 1921 cost the farmers more to produce it than they realized from its sale. And this disheartening experience of the grain grower was duplicated in the case of the livestock producers.

Under conditions such as these it is quite futile, and a waste of time, energy and money to endeavor to secure thousands of new settlers to come to Canada and engage in agricultural production. Conditions confronting and governing agriculture in Canada must first be righted.

There will always be years in which adverse weather conditions occur, years when plagues of grasshoppers, or rust, or some other pest will prevail to a certain extent, but every farmer is prepared for these. These things alone did not bring thousands of Western farmers face to face with disaster and ruin this year. Despite such drawbacks, and notwithstanding the high costs incurred in connection with the raising and harvesting and marketing of the 1921 crop, there would have been a profit had anything like a price comparable with the costs of production been obtainable. But just as soon as the crop began to move the bottom fell out of the market and the grain had to be sold, if sold at all, at a price less than the costs of production and transportation.

That's the situation in a nutshell, and the result is that not only the Western farmers, and West generally where prosperity depends upon the success of the farmers, but the whole industrial world in Canada is suffering. Business in the East as well as in the West is in the doldrums, is vitally, seriously, affected.

Agriculturists, we repeat, expect to face the vagaries and cope with the vicissitudes of nature, but as individuals they cannot combat such a combination of circumstances as are contended them during 1921 and will confront them again unless Canada wakes up as a nation and grapples with what is our outstanding national problem. A solution must be found, and found speedily, if Canada is to grow and prosper.

Canada can only live and prosper by developing a large and profitable export trade. The chief exports of this Dominion are, and for many years must continue to be, the natural products of its farms, its mines, its forests, and its fisheries. World markets for these products must be found and developed. The fiscal policy of this Dominion should be so framed as to encourage such a development.

A home market for factory products is of no value if the home people have not the money wherewith to purchase the manufactured goods, and the great mass of Canadian consumers cannot have money if the products of Canada's farms do not command a price in excess of the cost of producing grain and livestock.

Thickly populated countries may be self-contained, with an industrial urban population sufficiently large to consume all that the agricultural rural population can raise, and vice versa, but not so in a country like Canada with an enormous undeveloped area of arable land and other natural resources and a sparse population thinly spread out in a line three or four thousand miles long. Canada must produce more from its land than its own people can consume, and a profitable market must be had for the surplus in order that the whole country may prosper.

Professor Says Sea Is Shrinking

Attributed to Collection of Ice at South Pole

Our oceans are shrinking. This charge, asserts a professor of Harvard University, is quite independent of local rises and falls caused by the warping of the earth's crust.

FACE WAS FULL OF PIMPLES

For Three Years, Hard and Awfully Sore, Disfigured. Cuticura Heals.

"I had been suffering with a pimply face for three years. My face was full of pimples, and they were hard and awfully sore. They festered and dried up, and were scaly, and disfigured my face. They caused me to lose a lot of sleep, and were awfully itchy, making me scratch and irritate my face."

"I started to use Cuticura Soap and Ointment and I used two cakes of Cuticura Soap and two boxes of Cuticura Ointment when I was healed." (Signed) Clifford Yeomans, East Chesham, N.J.

Use Cuticura for every-day toilet purposes. Bathe with Soap, moisten with Ointment, and apply to the face. Soap, 25¢; Ointment, 25¢ and 50¢. Sold throughout the Dominion. Canadian Agents: The Canadian Dispensary, Ltd., Toronto. Cuticura Soap shows without stain.

Wireless Beacons May Replace Lighthouses

Chief Advantage is Usefulness in Any Kind of Weather

Admiralty experiments with what are known as wireless beacons naturally give rise to the question, "Are our lighthouses doomed?"

Important experiments have been conducted in the neighborhood of the Lizard, Cornwall, and are believed to have met with success. If the principle of the wireless beacon is accepted by Trinity House it will, of course, be an untold boon to our coastwise shipping. The number of wrecks will be reduced, but at the same time there will be an added touch to the romance of the lighthouse and the lighthouse keeper, and novelists will have to seek inspiration for their sea stories elsewhere.

The chief advantage of the wireless beacon is that in any weather, by day or night, in fog or blizzard, it can be picked up by a ship's radio, with wireless as easily as a lighthouse in clear weather. The operator in his cabin will be able to tell his captain exactly where he is without getting his touch with big land stations and without delay.

WHEN WOMEN SUFFER

Look for weakness or ill-health. See if there is not a side ache headache, restlessness and the "blues." The symptoms indicate that you need the gentle assistance of Dr. Hamilton's Pills. This soothing medicine is a great friend to womanhood. It gives a wonderful relief to constipation, they clear up skin headache, remove freckles and pimples from the face. Girls and women can use Dr. Hamilton's Pills with great success. They stand no other test, for they are sold solely upon Dr. Hamilton's Pills to regulate the system and keep it in smooth running order. See the list of the Catarrho-Cole Co., Montreal.

"Zyx" is the last word in the English language, according to the new Oxford dictionary.

The man who accomplishes things has learned to labor while he waits.

THIN, WATERY BLOOD MEANS ILL HEALTH

Rich, Red Blood Brings Bright Eyes and Rosy Cheeks

The girl who returns home from school or from work thoroughly tired out will be fortunate if she escapes a headache and breakdown, because this getting tired so easily is probably the first warning symptom of a thinning blood that must be remedied if her health is to be preserved.

When the blood becomes thin and impure the patient becomes tired not only tired out easily but often suffers from headaches, palpitation of the heart, dizzy spells and a loss of appetite.

In this condition Dr. Williams' Pink Pills will be found to have a beneficial action on the blood. Miss Delima Lafreniere, St. Ambrose, Man., has proved this in her own case, and she advises others to use these pills. She says: "Before I began the use of Dr. Williams' Pink Pills I felt like a complete wreck of my former self. My blood was poor and thin. I suffered from faint and dizzy spells, and from backaches and headaches almost every day. I decided to give Dr. Williams' Pink Pills a trial, and by the time I had used three boxes I felt much better and I continued taking the pills until I was well. I can now do for what they did in my case. I cannot recommend these pills too highly."

Dr. Williams' Pink Pills can be obtained from any dealer in medicine, or by mail at 50 cents a box or six boxes for \$2.50 from Dr. Williams' Medicine Co., Brockville, Ont.

Gift to British Foreign Office

Artist Has Worked Seven Years On New Frescoes

The new frescoes at the Foreign Office, a gift from Sigismund Goetz, the eminent painter, were recently inspected by members of the Cabinet Council.

There are five large works, reaching from dado to ceiling, and three smaller subjects over the doorway. They treat of the origin, education, development, expansion and triumph of the British Empire.

Descriptive phrases above the main subjects indicate the scope of each.

"The seafarers claim Britain as their bride."

"She teaches her children the arts of peace."

"She teaches her sons the arts of war."

"Mistress of the seas, she sends her sons into distant lands."

"To the Motherland they offer aid and counsel; friends allied acclaim the righteous peace."

Mr. Goetz has been employed on the work for seven years. "It has been agreed that no call shall be made on public funds, not even for the fixing of the frescoes to the walls," said the artist to a press representative.

"I have accepted responsibility for the whole thing, and that is as well to explain in these days of unemployment."

Minard's Liniment For Gargot in Cows

OUT OF DOORS

Added in death! So a recent Canadian investigation showed. These were not cases of infectious diseases—of consumption or typhoid. They were cases where a person had sustained some slight injury—a cut, a burn, a wire-prick—and where the wound, being thought not serious enough for careful treatment, had been neglected. Blood-poisoning and death resulted. When you or your children sustain any injury, ensure against infection by applying Zam-Buk. This balm soothes the pain, stops bleeding, and by destroying all germs prevents blood-poisoning, etc. Hence no time need be lost from work or pleasure by those who use Zam-Buk. All dealers, 60c. box.

Zam-Buk

Tea Frock of Chiffon And Crystal Bugles

By Marie Belmont

Crystal bugles effectively cover this frock of orange chiffon. The dress is simple in design, showing a straight wide panel dropping free in the back from shoulders to hem line.

The importance of little things in costume detail is here symbolized in the tiny band of silver which draws the neck line together in front. The silver shoe reappears in the underbrace which shows beneath the slit, and in the narrow wrist girder.

Silver bugles are strung on a background of white, and this frock is very youthful and charming in white and silver.

Thirty thousand years was the total of the ages of 410 old people entertained at a dinner in London recently.

A man's brain attains its maximum weight at the age of 23 years.

Nervous Breakdown COULDN'T SLEEP NIGHTS

To those on the verge of a nervous breakdown the following symptoms present themselves: nervous headaches, a feeling of depression, irritability, restlessness and unrefreshing sleep, often troubled with frightful dreams, avoidance of crowded places, dread of being alone, horror of society, etc.

When the nerves become affected in this affected too, and on the first signs of any weakness of the heart or nerves, flagging energy or physical breakdown do not wait until your case becomes as acute as that of the man who died at once when he built up the entire system.

This you will find in

MILBURN'S

HEART AND NERVE PILLS. Mrs. M. Damgaard, Young's Cove, N.B., writes: "I was bothered very much with my heart and nerves; had nervous headaches and dizziness, and could not sleep at night, and my appetite was all gone. I was on a nervous breakdown when a neighbor told me to try Milburn's Heart and Nerve Pills. This I did, and before I had the second box used I was better and would advise anyone who has nerves trouble to take them."

Price, 50c. a box at all dealers, or direct by mail on receipt of price by The T. Milburn Co., Limited, Toronto, Ont.

"YOUR TEETH"

CLEFT PALATE

By RHA. PROCTOR McGER, D.D.S., M.D., Editor of "Your Teeth"

The roof of the mouth is called the palate. There are two parts to it, the hard bony part surrounded by teeth, which is naturally called the hard palate, and the soft part that is so sensitive, at the back of the mouth, called the soft palate.

Some unfortunate children are born with a separation of the palate lengthwise. In these cases the nose and mouth open into each other.

It is very difficult to feed cleft palate children and if they do grow up, they have a lifetime of suffering and embarrassment. They cannot speak distinctly and have great difficulty with the fluids of the mouth and nose. Usually through the border of the upper lip.

Two methods are used to give relief to these children. One is to perform an operation, or rather a series of operations, to close the roof of the mouth and the opening in the lip.

The other way is to make a plate that will mechanically close the opening in the palate.

The nature of the deformity makes the wearing of this plate very unpleasant for the patient.

When a child is born with a hare lip and cleft palate, the first thing to do is to get a cleft palate nursing nipple, because these children are so very hard to feed.

Then have the palate closed as early as possible. In these children are successfully operated on before they learn to talk; the voice will be normal. If the cleft is left until the child becomes accustomed to the faulty use of the tongue that is necessary with the open palate, his speech will never be perfect.

Asthma is Torture. No one who hasn't gasped for breath in the power of asthma knows what such suffering is. Many do know, however, from experience how immeasurable is the relief known by the preparation Dr. J. D. Kellogg's Asthma Remedy. For years it has been relieving the most severe cases. If you are a sufferer do not delay a day in securing this remedy from your druggist.

Leads West in Honey Production Manitoba's honey production for 1921 amounted to 903,000 pounds, derived from 14,721 colonies of bees. This province now leads all others in Western Canada in the production of honey, followed by British Columbia with 209,672 pounds.

Killed By Blood Poison Used an old razor for paring his corns. Foolish because he bought a bottle of Putnam's Corn Extract which for fifty years has been removing corns and warts without pain. No failure if you use "Putnam's." Refuse a substitute, 25c. everywhere.

Training Canadians To Speak Value of Teaching the Youth How to Speak in Public

One of the most important projects undertaken in connection with public schools, high schools, universities, and by professional instructors, is that of teaching the young Canadians how to speak in public.

Ideas and thoughts only have value in direct proportion to the extent to which they are spread.

The crusades would never have materialized had Peter the Hermit not inspired the Christian world with his fiery eloquence. Without his ability to talk, the capture of the Holy Land would have remained as a magnificent dream in Peter's brain.

People go to church and hear a sermon. If the minister is a trained speaker, his ideas are twice as effective as the ideas of the preacher with a halting tongue.

Upon the clarity of a school teacher's delivery depends the thoroughness with which pupils receive and digest new ideas.

Business men meet together to discuss business problems and new sales methods. The merchant who can clearly put his thoughts and discoveries before his colleagues, elevates business as a whole.

Organs of speech were given man to use. It is man's duty to bring them to as great a state of efficiency as his muscles, his brain or any other part of his body—Vancouver Sun.

The War Horse "General Braddock" wrote the small boy, "was killed in the late war. He had three horses shot under him, while the fourth went through his clothes."

Tunnel beneath the English Channel will be 21 miles long under the sea.

A theatre-ticket stamper of Muhl is said to have invented the lithograph process in 1790.

Minard's Liniment For Colds, Etc.

MISS FRANCES NEWMAN, Chicago, Ill.

"Only a medicine of truly wonderful merit could have done what Tanlac did for me and there is nothing half good enough for me to say about it," said Miss Frances Newman, 2639 Birch, St., Chicago.

"I don't think anybody ever suffered any more from indigestion than I did and for over a year I was in wretched health. I had smothering spells and my heart palpitated so violently I thought I had heart trouble, but I know now it was all caused from my stomach."

"Stomach taking 'Tanic' I feel and look like a different person. I have a splendid appetite and my digestion is just perfect. I sleep eight or nine hours every night and get up in the morning feeling fresh and happy. My friends tell me 'I'm always smiling now and I certainly ought to be, for I'm enjoying life again.'"

Tanic is sold by leading druggists everywhere.

To Extend Railway

Line North From Cochrane Will Open Up Rich Area

The Ontario Government is calling for tenders to extend the Temiskaming and Northern Ontario Railway from Cochrane to Miller, near James Bay. The cost is expected to be under \$5,000,000. This railway will open up one of the finest agricultural areas in the north country; also great timber areas and almost unlimited water power. It is estimated that the proposed extension will end, are water powers running to waste which would produce 200,000 horsepower.

It Will Relieve a Cold—Colds are the commonest ailments of mankind and if neglected may lead to serious conditions. Dr. Thomas' Electric Oil will relieve the bronchial passages of inflammation speedily and thoroughly and will strengthen them against subsequent attack. And as it eases the inflammation it will stop the cough because it allays all irritation in the throat. Try it and prove it.

The first stockings were bandages wrapped around the feet.

Light penetrates 3,000 feet below the level of the ocean.

The first real store was constructed by an Englishman in 1821.

STRENGTH AND HEALTH Red Blood, Vim, Vigor, Vitality Follow This Advice

Nagara Falls, Ont.—"As my parents have used Dr. Pierce's remedies with such wonderful and quick results I take great pleasure in sending a good word to boost the cause of 'Freedom from Illness.' I have used the Golden Medical Discovery at times for the past three years."

By occupation and the labor of a pressman, fatiguing and injurious to the system. But today his press has no drawback for me. Three cheers for Dr. Pierce's Discovery!"—William H. Dempsey, Jr., 25 St. Louis.

As soon as you begin to take this "Discovery" you begin to feel its effects. It is a tonic for the blood, and it is a tonic for the system. It is a tonic for the body, and it is a tonic for the mind. It is a tonic for the soul, and it is a tonic for the spirit. It is a tonic for the whole man, and it is a tonic for the whole world.

Submarine Warfare Against Merchant Ships Will Be Abolished

Washington.—The five great naval powers of the world have decreed as between themselves, the abolition of submarine warfare against merchant ships. To purge the seas forever of this hidden menace to peaceful folk and ships, the world is asked to subscribe to the decree of a new principle of international law.

As adopted by the naval committee of the arms conference, the resolution proposed by Zilhu Root, and amended by Arthur J. Balfour, to become immediately effective between the five signatory powers, runs in part as follows:

"One.—The signatory powers desiring to make more effective the rules adopted by civilized nations for the protection of the lives of neutrals at sea, and to establish a new principle of international law, hereby agree to the following, which are to be deemed to be established by the present agreement:

"1.—A merchant vessel must be ordered to stop, and to be searched, to determine whether or not it can be seized.

"2.—A merchant vessel must not be attacked unless it refuses to submit to a visit and search after warning, or if it is found to be carrying contraband.

"3.—A merchant vessel must not be destroyed unless the crew and passengers have been first placed in safety.

"4.—Submarine warfare is not under any circumstances exempt from the international rules above stated, and if a submarine cannot capture a merchant vessel in conformity with these rules, the existing law of nations requires it to desist from attack and from seizure, and the permitting of the merchant vessels to proceed unimpeded.

"The signatory powers invite all other civilized powers to express their assent to the foregoing statement of established law, so that there may be a clear public understanding throughout the world of the standards of conduct by which the public opinion of the world is to pass judgment upon future belligerents.

Big Drop In Sugar

Toronto.—The new year started auspiciously with a drop in the price of sugar. The reduction amounts to 50 cents per cwt. The wholesale price on best granulated, delivered Toronto, is now quoted at 77.45. In the first week of January last year, the price was \$10.71 per cwt.

Mother of Author Dies

Oakland, Cal.—Mrs. Flora London, mother of the late Jack London, the writer, died at a hospital near here where she had been under treatment for several weeks. She was 79 years old.

Text Of Provisions Of Alternative Scheme Advanced By De Valera

Dublin.—Following is the text of the most important provisions of Mr. De Valera's alternative proposal:

"Status of Ireland.—That the legislative executive and judicial authority of Ireland shall be derived solely from the people of Ireland.

"Terms of Association.—That for the purpose of common concern Ireland shall be associated with the states of the British Commonwealth, namely, the Kingdom of Great Britain, the Dominion of Canada, the Commonwealth of Australia, the Dominion of New Zealand and the Union of South Africa.

"That when acting as an associate, the rights, status and privileges of Ireland shall in no respect be less than those enjoyed by any other component state of the British Commonwealth; that the matters of common concern shall include defense, peace, war, political treaties and all matters now treated as of common concern among the states of the British Commonwealth and that in these matters there shall be between Ireland and the states of the British Commonwealth such concerted action founded on consultation as the several governments may determine.

"That in virtue of this association of Ireland with the states of the British Commonwealth the citizens of Ireland in any of these states shall not be subject to any disabilities which a citizen of one of the component states of the British Commonwealth would not

Settle Shanting Case

New York.—A cable message from Wu Tung Fang, one time Chinese minister to the United States, saying the Peking Government had finally accepted the Japanese terms for the settlement of the shanting controversy, concerning the loans from Tokio, was made public by Dr. Au So, Canton Government representative in this country.

Transfer of Resources

Will Be Asked

Resolution to Be Brought Before Gov. of Manitoba.

Winnipeg.—Resolutions calling upon the Federal Government to make immediate transfer of natural resources to the three prairie provinces will be brought before Manitoba, Saskatchewan and Alberta legislatures for ratification when they convene early this year.

Premier Hughes, Greenfield, of Alberta said in an interview here.

"Premier Greenfield said the western governments do not contemplate going to Ottawa at present as a delegation to demand placing the natural resources under provincial control.

"Following the meeting of the various legislatures and passage of the resolutions, it is probable the three governments will ask Premier King for transfer of resources. The Western Canada Colonization Association has withdrawn its request for legislation providing for flitting of all farm lands, Premier Greenfield said. Other arrangements are being made by the association for colonization of western lands.

Will Pay Quarterly Dividends

Merchants Bank Shareholders Will Be Paid Future

Montreal.—It was officially announced here that the shareholders of the Merchants Bank are to receive a 1% per cent. dividend on their stock for the current quarter. It will be paid February 1 to shareholders of record January 4. This is about equal to that which shareholders will receive quarterly on their stock when it is exchanged for Bank of Montreal stock on the proposed two-for-one basis.

Criminals Officer Attacked

Calco, Egypt.—Badriddine Bey, controller of the Egyptian Government, was assassinated at the hands of a youth believed to be a student. The controller was seriously wounded by a revolver shot. He returned the fire and pursued his assailant, but the latter escaped.

Direct Wireless to Australia

Sent From England Distance of Twelve Thousand Miles

Sydney, New South Wales.—The first direct wireless press message to Australia from England was published December 3 in the Colon. It was sent from the wireless station at Carnarvon, England, a distance of about 12,000 miles.

The wireless station was built by the powerful wireless station at Perth, Western Australia, and Melbourne, Victoria, and thence retransmitted to Sydney.

Devastating Fire In British Coast Town

Mile of Fire Caused Five Million Dollars Damage

West Hartlepool, Eng.—Scores of houses had been laid waste, 2,000 people rendered homeless and more than \$1,000,000 damage done by a fire which broke out in the timber yard here.

The fire was the most devastating ever known on the northeast coast. It recalled in its effects the losses after the German bombardment of West Hartlepool in 1914. The track of the fire ran more than a mile, chiefly along the main road from Hartlepool to West Hartlepool, and the main east shore of Hartlepool. It started in a large creosote tank and huge stacks of railway sleepers, which successively caught fire, despite the desperate efforts of the firemen who had been brought on special trains from Newcastle, Leeds, Harrington and a half dozen other points in the vicinity. Scores of tenement houses in the area are destroyed. There were only a few minor casualties.

Contestants Train

For Dog Derby

Seventeen Teams Are Entered For Race at The Pae

The Pae, Man.—Contestants for the fifth dog derby here have commenced active training and from now to the date of the race, Feb. 28, the teams will be worked for runs of 50 miles daily. The list of entries on hand indicates that the race will be contested by the largest number of teams that ever competed in a major dog derby. Seventeen teams averaging eleven dogs each make up the entry list so far, which include three Alaskan entries.

The ruling favorites are Prastauk, Morzan and Nanoroff, all experienced derby races. A new competitor from whom much is expected is Jack Sinclair, whose team is made up of 15 Noway House huskies. They are big heavy animals and it will be their first experience at derby racing. Miss Lottie Bagshaw, daughter of the local postmaster had been selected carnival queen for the event.

Toronto Has Woman

Police Magistrate

New Official Was Decorated By King

Edward VII.

Toronto.—Dr. Margaret Patterson has been appointed woman police magistrate for Toronto at a salary of \$3,500 per annum.

The new magistrate was born in South Perth, Ont., and graduated in medicine from Northwestern University, Chicago, in 1909. She was decorated by King Edward VII. for distinguished service in organizing the national resources of India against the bubonic plague.

Lowest Insurance Paid

Toronto.—According to steamship

underwriters, the navigation season

just closed on the Great Lakes will go

down as a record from the standpoint

of insurance paid for losses. It is

many years since the losses were so

small, notwithstanding the fact that

the navigation season was the long

on record.

B.C. Seed for Great Britain

New Westminster, B.C.—Fifteen

hundred pounds of Douglas fir seed

and 1,500 pounds of alaska spruce seed,

the first shipment of British Columbia

forest seed for the reforestation

scheme in Great Britain, has just

been made from the government's

seed extraction plant here.

To Reduce U.S. Forces

Washington.—A bill proposing to

reduce the personnel of the army, com-

missioned and enlisted included, to

75,000, and of the navy to 50,000, was

introduced by Senator King, Demo-

crat, Utah.

No Decision Yet

Ottawa.—It was stated in the high

official circles here that the Liber-

al government had not yet discussed

the proposal to bury a Canadian un-

known soldier in the main entrance

of the new parliament buildings.

WESTERN EDITORS

Discusses Important Western Matters At Conference In Winnipeg

Popularity Of Prince

London.—The Prince of Wales,

speaking at a dinner in Rangoon,

according to a Rangoon cable, said

that nowhere during his three em-

pire tours had he received a warmer

welcome than in Rangoon.

The extent to which the Prince

has captivated the warm hearts

of the people here is strikingly dem-

onstrated on every possible occa-

sion. During a garden party at

Government House he received the

most prolonged ovation. Also

while motoring to a dance at the

gymkhana, along a route abate

with Chinese lanterns, the Prince

was greeted with an unbroken

series of cheering in striking evi-

dence of the popular belief that an

Oriental crowd was never demon-

strated.

Gold Rush Continues

Hundreds of Claims Staked at Elbow

Lake

The Pae.—The rush to Elbow Lake

gold camp, 75 miles north of here,

continues and nearly 500 claims have

been staked out. Many prospectors

have gone in, and in the last week 11

two-horse freight teams and approxi-

mately 50 dog teams left here with

supplies. The Hollinger Company, of

Porcupine, holders of the 150,000 op-

eration Murray claims, have taken in

complete supplies and a gang of 25

men who will start immediate develop-

ment of the property.

A number of claims near the origi-

nal Murray discovery which, have

been overlooked owing to heavy tim-

ber surrounding it, have been found

by G. R. Bancroft, and he has ac-

cepted an offer of \$75,000 from a To-

ronto syndicate for his holdings.

Severe Storms In

Great Britain

Heavy Snowfalls in North Have

Blocked Railway Lines

London.—Severe weather is being

experienced throughout the United

Kingdom. Heavy snowfalls in the

highlands are reported and in the

western counties the railway trains

are blocked by snow. Fierce storms

are sweeping over the English Chan-

nel. Gales on the Yorkshire coast

have endangered lives as well as ves-

sels, and lifeboat crews have perform-

ed splendid feats in preventing drown-

ings.

In addition to the storms in this

country, influenza is disturbingly

prevalent at present.

Writ For Kent Bye-Election

New Minister of Labor Will Be

Liberals Candidate

Ottawa.—The writ for the bye-elec-

tion in the constituency of Kent, Ont.,

made vacant by the elevation of A. B.

McGill to the Senate, was issued by

Col. O. M. Higgs, chief electoral of-

ficer, January 19 will be nomination

day and the election will be held Feb-

ruary 2.

J. A. Walker, K.C., Chatham, Ont.,

has been appointed returning officer.

Hon. James Mudge, minister of

For funeral flowers phone 212. Crow's Nest Pass Undertaking Co.

FOR RENT—Furnished Room for a gentleman. Apply 11 8th Ave.

Joe Michalsky, of Coleman, is conducting a big slaughter sale of dry goods, boots and shoes, sale commencing tomorrow, Friday.

There are 500 persons in training in Alberta in first aid classes, being conducted by the Workmen's Compensation Board of the province.

The Marys of the British Empire have started to raise funds for the purpose of forwarding wedding presents to Her Royal Highness, Princess Mary.

Christmas tree dealers in New York were surprised to find bottles of whiskey snugly nestled in the hearts and branches of trees received from near the Canadian boundary.

The civic payroll of Calgary is \$365,000 per year. If the wage reductions proposed at the Medicine Hat municipalities conference in October, go into effect there, it will mean a saving of \$95,000 per year to the taxpayers.

At last Sunday night's service at the Union church, Robert Barnhill, Blairmore's representative to the convention of Tuxis and Trail Rangers, held at Edmonton, gave a graphic account of the doings of the boys' parliament on this occasion.

Teachers of Blairmore school gave their pupils strict instructions to wear heavy clothing and to keep their legs and chests well protected. One of the pupils put up his hand and when asked what he wanted he said, "Please, teacher, you don't keep your chest covered."

Mr. Lewis, manager, and several of the Lethbridge hockey players, paid a visit to Mr. M. G. Rhyman at the hospital Monday. They presented him with a bouquet of pink and white carnations and wished for his speedy recovery.

Mr. Blue, of Taber, was also a visitor to the hospital on Monday. "Just Suppose" did not receive the patronage the play deserved on their appearance here on Tuesday night. Of course, there are so many other attractions these days, including hockey, that people either cannot afford to support a travelling show or have not the time.

A Scottish minister discovered a trouser button in the collection plate one Sunday morning. In the evening when he ascended the pulpit he announced: "I wish to remind you that there is a collection at the close of the service. The text I have chosen for the evening service is: 'Render your hearts and not your garments.'"

Headquarters, Military District No. 13, Calgary, announce that Officers on the "General Reserve" or "Retired Lists" of the Canadian Militia, residing within the limits of Military District No. 13, (Province of Alberta and territory of MacKenzie) who do not report themselves each year to District Headquarters, in writing, giving present Post Office address, are liable to have their names dropped from the rolls. The rolls are now being revised, and reports are due at District Headquarters.

Mark Sartoris, of the Blairmore Wholesale Jobbers, wishes us to announce that he is still doing business and may be found at the Ponderlock store at the corner. As soon as weather will permit, work of re-construction of his store will commence.

The reason that some reformers never get any place is that the reformers are such funny looking creatures they make everybody laugh.

Sixteen dollars is all that remains of \$25,000,000 invested in the Co-operative Society of America by 80,000 persons.

Mrs. K. K. Goudie was shown from Crow's Nest on Tuesday.

FOR SALE CHEAP—Dining Room Suite, Chesterfield Parlor Suite, Fumed Oak Library Table, Brussels Carpet and Set of Dishes. —Apply J. James, West Coleman.

The Hillcrest Curling Club are holding a masquerade ball in the Union hall at Hillcrest on the evening of Wednesday next, January 18th. An excellent time is looked for.

A meeting of the school trustees was held last night at the school houses to consider co-operation with the town in the matter of 1932 assessment.

It is said that the women of Argentina are about six months ahead of New York women in the matter of dress. Well, at that rate, Eve must have been fairly well dressed when she donned that proverbial fig leaf.

Blairmore's junior hockey team journeyed to Pincher Creek yesterday and accepted a defeat, to the tune of 4 to 2. The boys returned this morning and speak glowingly of the treatment accorded them in the prairie town.

A new detachment of the Alberta provincial police has been opened at Wayne, near Drumheller, with Constable R. C. Stuchbery in charge. Const. Stuchbery was at one time stationed with the R. C. M. P. at Hillcrest, and since joining the A. P. P. has been commended in the press repeatedly for his good and efficient services.

At a meeting of the I. O. D. E. this week, Mrs. L. H. Putnam, who for the past year has filled the office of vice-regent of the local chapter, was unanimously elected regent, succeeding Mrs. Henderson, who resigned a short time ago. Since the resignation of Mr. Henderson, the duties of regent have been handled by Mrs. Raoul Green.

Tonight Taber and Bellevue hockey teams will meet on the Bellevue arena, not in a "bottle royal," but in a good clean, entertaining game of hockey. Any Lethbridge folks who happen to saunter around that way will be given the choicest positions in the arena, where they will be permitted to talk, laugh, shout and root to their very hearts' desire, without intervention of police or anybody else. The same cordial treatment will be meted out at Coleman tomorrow night, when the teams referred to by the Lethbridge Herald as "enemies," will try conclusions on the ice.

Scarcely an article in the Lethbridge Herald of late, in reference to hockey in the Crow League, but savors strongly of childishness on the part of the writer. As far as the Pass is concerned, we are all content to win or lose in good sportsmanship and The Pass today holds a record that cannot be beaten in any district in Western Canada in promoting and maintaining sport in all its lines. But it is time that a city of the age and size of Lethbridge should get away from childish petty jealousies and let the visitors to that city feel that they are at all times welcome guests.

We understand that the Pass detachments of the A. A. P. are to be reinforced, and that in future there will be two men stationed at Coleman, two at Blairmore, two Bellevue and one at Hillcrest. The object is to be the better enabled to enforce the Liquor Act.

The Scot's Excuse

A Scotsman arrived in London so incriminated that he was arrested. "I fell into bad company," he said, excusing himself in the police court. "What bad company?" asked the magistrate. "I came down from Edinburgh last night," the Scot replied, "with a bottle of whiskey and three testicles. So I had to drink it all myself."

Neat Little One

The worst Curse

"My good friends," began the temperance orator, "think is the yoke of the world. All the crimes, all the wars, all the heartaches of the universe can be laid at the door of intoxication.

He paused significantly and gazed around at his audience.

"Oh, my friends," he continued at last, "what causes more misery than liquor?"

Not receiving any reply to his query he repeated the question, adding:

"Can anyone tell me that, is there any worse curse than liquor?"

The silence was broken by a little man at the end of the hall.

"Thurs!" he yelled.

Cadet Annual Issued

A copy of the Alberta Cadet Service Annual issued by Military District No. 13, has just reached this office. It is filled to overflowing with facts and information concerning the cadet corps of the province and with military news which will be of great interest to the large membership of the service in the province.

They say in all government reports that the cost of living is coming down every week. Well, the government carried around a much stronger microscope than the average head of a family, and are able to see much smaller objects.

Mrs. Milton McLeod, of Calgary, is the guest of Mrs. A. E. McPhail, in the Greenhill apartments.
